

With your support we were able to serve nearly **43,000 meals** last year, averaging **180 meals** a day!

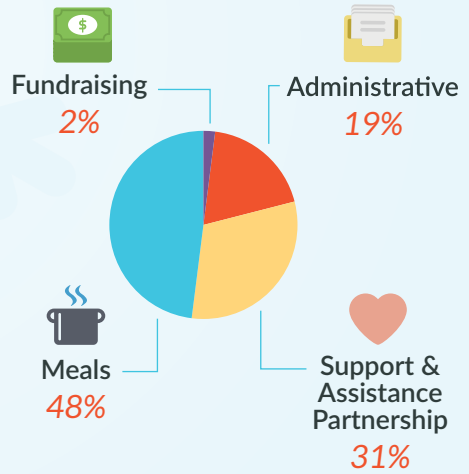

## Where our money comes from...

Only 40% of our funds come from government grants.

## Where our money goes...

79% of our dollars fund the services we provide to our community elders.

## Help us increase our reach for 2015!

While the need for our services increases every day, funding has decreased significantly in the past year. Without your support, the Council on Aging will struggle to meet the growing demand for services.
